

OpenColo

Connectivity. Space.
Power. Support.

OpenColo is a boutique data center located in the heart of Silicon Valley with state-of-the-art facilities and more than 15 years experience providing customers with superior colocation and other hosting services.

ELECTRICAL

2N power redundancy to complement our 100% uptime SLA and a busway power delivery system for custom power configurations and faster power upgrades

CONNECTIVITY

BGP blend of multiple Tier 1 upstream providers and more than 50 peered networks. As we are a carrier neutral data center, customers can also bring in additional providers with cross connects. Contact our sales team for a list of providers.

SPACE

71,000 sq. feet of data center means OpenColo has the space you need whether you're looking for a single rack or multiple cages.

SECURITY & RELIABILITY

Controlled access and 24/7 monitoring by our DCIM system and experienced onsite technicians to ensure that your mission critical equipment remains secure.

FIRE DETECTION

State of the art fire detection and sprinkler systems ensure that your equipment remains safe in case of a fire emergency.

LIGHTING

N-Light lighting system allows for greater energy efficiency and lower costs for our customers.

COOLING

N+1 indirect evaporative cooling system and Hard-Walled Hot-Aisle Containment

AMENITIES

Beautiful office, conference and lounge spaces make working in the data center much more comfortable
